SECURITY MEASURES & MASKS & SOCIAL DISTANCING

The health of our customers and our employees is our priority. Therefore, with the help of HotellerieSuisse and based on the guidelines of the Federal Office of Public Health (OFSP), we have taken new measures to ensure your protection.

Before visiting our hotel, **please be aware of local regulations and travel restrictions that may prevent you from staying in the destination region/country**. Please do not stay with us if you have **symptoms** indicating a respiratory tract condition **within the past few days**. Also, **please inform us if such symptoms appear during or after your stay**.

Please be aware of the following recommendations:

- We adapt the protection measures as the official requirements and recommendations evolve. Our employees are regularly trained and informed.
- **It is compulsory for everyone to wear a mask inside and outside of our hotel**. You are only exempted from wearing one while sitting at a table or in your hotel room. However, you must wear it even when going to the restroom or to another table.
- Respect the 1.5m distancing rule with other people. This applies to the changing rooms, toilets, conference rooms, restaurant and lounge. The number of authorized people is also limited in some areas.
- Try not to use the lift with other people.
- Markings on the floor and/or barriers have been placed in critical areas: please respect them. Separation windows are installed in places where the distancing cannot be guaranteed.
- Wash and disinfect your hands regularly. You can find disinfection stations in various places of our hotel.
- Pay by card, preferably contactless.

MAINTENANCE & CLEANING

Our cleaning and disinfection protocols have been reinforced and are followed meticulously.

- Frequently touched and used surfaces, objects and work equipment (door handles, elevator buttons and switches, etc.) are disinfected several times a day.
- Public premises are regularly ventilated.
- Rooms are left vacant for 48 to 72 hours after the last client's departure. The bedroom, bed linen and all contact points are then cleaned with suitable products and disinfectants.
- Unessential items, such as glasses (replaced by hygienically wrapped cups), water jugs, notepads and pens and guest information binders have been removed from the rooms.
- For the well-being and safety of everyone, daily maintaining services are now only available on a limited basis or by demand.
- Our employees always wear protective masks and gloves for certain specific tasks.

We thank you for your understanding and help. We remain at your disposal for any additional information when needed.

Have a nice stay...
